

# MMSEA Section 111 Reporting

---

## The Turnkey Solution for MMSEA Compliance

MIR Express™ from APP Technologies takes the technical complexity out of MMSEA Section 111 (aka Mandatory Insurer Reporting). Due to the highly technical nature of Section 111 compliance, many companies have difficulty implementing and maintaining solutions to meet its changing requirements.

APP provides a user-friendly, secure, web-based service for Non-Group Health Plans (NGHP) that enables you to report to CMS on time without worrying about the technical details.

MIR Express™ pre-validates your submissions using CMS's own rules to insure your reports are complete before they are submitted to CMS. This minimizes rejections which could otherwise result in costly fines for non-compliance. MIR Express™ has the most advanced validation available today.

Get in compliance with MMSEA Section 111 quickly, regardless of the system you currently use to manage your claims.

## Problem solved

- ✓ A turnkey solution: APP handles all required testing with CMS, pre-checks your data for errors, and manages all submissions
- ✓ Pre-validation of all data to minimize the likelihood of rejections by CMS (99% claim acceptance rate)
- ✓ Guaranteed on-time reporting to CMS during your assigned reporting period
- ✓ Flat-rate and per claim pricing options with volume discounts available
- ✓ User-friendly, web-based service is the only one of its kind for the industry

Interstate Distributor Company

## ➤ Standalone Web-based Management

- ✓ User-friendly, secure web interface with 24/7 access
- ✓ All reports are automatically pre-checked for errors to reduce the likelihood of rejection
- ✓ On-time transmissions to CMS during your assigned reporting period
- ✓ Upload claim data from Microsoft Excel files or enter data directly online
- ✓ E-mail notifications keep you up-to-date
- ✓ Manage multiple RRE IDs with one login
- ✓ Keeps a full history of all submissions to and responses from CMS
- ✓ Online reporting to quickly identify claims status

## ➤ Integration with your Claims System

- ✓ Integration with claims systems via web services or SFTP transmissions means zero data re-entry
- ✓ Warnings and CMS results from MIR Express™ are returned to your claims system
- ✓ Seamless integration with APP's Incident Management System (IMS) claims platform

## ➤ MMSEA Section 111 Reporting, Plain and Simple

- ✓ A dedicated team keeps up with changing CMS regulations
- ✓ Full support for queries and quarterly reports
- ✓ All of the technical details are taken care of behind the scenes so you can focus on what matters most: your business
