

Go Compliance

The screenshot shows a software window titled "Employees" with a tabbed interface. The "Compliance" tab is active, displaying a table of compliance records for an employee with ID 513 and name Mooreland, Albert. The table has columns for Date, Type, and Comments. The records include:

Date	Type	Comments
5/15/2005	Drug & Alcohol Test	
5/15/2006	Negative	
3/4/2005	Driver's License	
1/12/2012		
5/20/2005	State Criminal Check	Received automatically via web; track #5229891224
5/19/2007	OK	
9/15/2005		

Navigation controls at the bottom include "Record:" with a list box showing "3" of "3" records, and buttons for "History" and "Add Compliance Date".

Benefits

Go Compliance delivers key benefits to optimize your operation:

- **Keep on top of all certifications** and never have out-of-compliance staff again
- **Save time** with active reminders that alert you to potential compliance problems
- **Eliminate fines and expenses** due to out-of-compliance conditions
- **Increase productivity** with useful workflow tools
- **Understand your potential exposure** with complete history on any employee

Set up custom certifications, compliance requirements and alerting rules in minutes. Compliance reports get you the information you need quickly—never go out of compliance again!

Manage All of Your Compliance & Certification Data Easily

Compliance is a key word in risk management today; maintaining employee and contractor certifications, license information, and training can be a tremendous task requiring mountains of paperwork and time.

Go Compliance allows you to command control over every facet of your company's compliance and risk information.

Go Compliance puts compliance information together with detailed employment history, attendance, and vital statistics to give you a complete understanding of a given employee's risk profile. Track the complete history of certifications such as background checks, training milestones, drug and alcohol tests, and more. Mandatory or self-imposed compliance programs can be structured and put in place rapidly with Go Compliance.

**Go Compliance Gets You
In Compliance.**

If You Can Track It, You Can Manage It

Through the use of **managerial reports** in APP Technologies' Go Compliance, keep yourself and your managers informed with **up-to-the-minute status reports** at the employee, division, and organization level.

The critical information you need to effectively manage your employee risk is finally available:

- Certification and compliance status
- Historical record of employee injuries, complaints, and performance
- Employee turnover (by seniority, location, etc.)
- Performance with respect to contractor and internal metrics

What Our Customers Are Saying About Go Compliance

"Employee compliance used to be a nightmare for us.

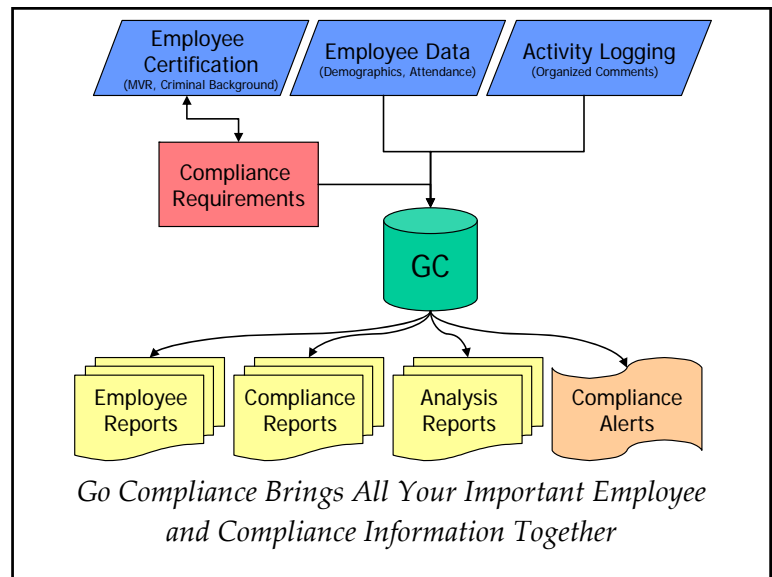

As an ambulance company, we have dozens of certifications to keep track of for each and every driver. Go Compliance transformed our compliance process, keeping all of our compliance data current and organized. Go Compliance has increased productivity and saved our organization time and money. It has given me the time I need to bring strategic value to our organization and it's hands-down the most user-friendly HRIS application I have ever used."

*Brian McCauley, Human Resources Manager
Network Ambulance Services, Inc. (Philadelphia, PA)*

Features

Go Compliance automates the major functional areas of your company's risk and compliance department:

- Keep all your employees and contractors in compliance with tracking for government, contracts and other specifications
- Alerts you to upcoming compliance milestones and warns about overdue compliance dates
- Customizable to generate contractor-specific HR reports
- Complete historical log of all complaints, commendations, speeding and traffic violations, on-the-job accidents and more

Go Compliance's Reports Put All Your Important Information at Your Fingertips!

Go Compliance tracks important **certifications** (e.g. license expirations, recurring background checks) and their related expiration dates. Get the information you need quickly with clear and concise reports and powerful filtering tools.

Free your company from old DOS-based applications or unmanageable spreadsheets; Go Compliance was designed from the start as a high-performance, easy-to-use Microsoft Windows application.

Get out from underneath the paperwork and **increase your productivity** from day one.

- Track attendance, vacation hours, sick days and other call-out time
- Detailed managerial reports
- Data export capability to applications like Microsoft Excel® for additional analysis

The Latest Technology: SQL Server, .NET, MS Office

Go Compliance is developed using the latest technologies from Microsoft, delivering value, performance and scalability.
